PS ASSOCIATES

QUALITY POLICY

PS Associates is committed to total Quality Assurance. For us, Quality represents all the dimensions of products and services, performance, features, reliability, durability, serviceability and aesthetics.

At **PS Associates**, Quality and Development Processes are two inseparable entities. We have a Total Quality Pyramid system in place, which comprises of the Project Team, the Quality Assurance Team and the Management. Manpower Services & Software development being highly complex in nature, we believe that quality is better assured through continuous monitoring during the entire project execution cycle.

PS Associates is achieved by integration of checks & balances at each critical stage of the System Development Life Cycle (SDLC). This results in a level of transparency that highlights discrepancies between the services delivered and the requirements.

P S ASSOCIATES

OPTIMAL QUALITY ASSURANCE

Processes and Methods - successful integration of Quality Assurance processes with development processes critically depends on roles of all involved in a project. Our integrated in-house methodologies - procedures, supporting tools and standards - ensure structured and coordinated management and execution of projects which ensure that all concerned are aware of their responsibilities and duties.
